1. ORGANIZATION

Carlyle AlpInvest Private Markets Fund (the "Fund") was organized as a Delaware statutory trust on December 7, 2021. The Fund is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a non-diversified, closed-end management investment company. The Fund commenced operations on January 3, 2023 ("Commencement of Operations").

The Fund's Board provides broad oversight over the Fund's investment program and its management and operations. AlpInvest Private Equity Investment Management, LLC serves as the Fund's investment adviser ("AlpInvest"). AlpInvest oversees the management of the Fund's day-to-day activities including structuring, governance, distribution, reporting and oversight. AlpInvest entered into a sub-advisory agreement with Carlyle Global Credit Investment Management L.L.C., who serves as the Fund's sub-adviser ("Sub-Adviser" and together with AlpInvest, the "Advisers") and is responsible for the broadly syndicated loans investment strategy of the Fund's assets. Each Adviser is registered as an investment adviser with the Securities and Exchange Commission (the "SEC") under the Investment Advisers Act of 1940, as amended. Each Adviser is also an indirect, wholly-owned subsidiary of The Carlyle Group Inc.

The Fund's investment objective is to seek long-term capital appreciation. The Fund will opportunistically allocate its assets across a global portfolio of private markets investments ("Private Markets Investments"). Private Markets Investments are expected to primarily consist of the following:

- direct investments in the equity or debt of target companies ("Direct Investments"), typically alongside third-party managers;
- purchases of existing interests in private equity or private credit funds ("Underlying Funds") and other private assets managed by Sponsors ("Secondary Investments");

- direct subscriptions for new interests in Underlying Funds (“Primary Investments”); and
- investments in privately placed bank loans and other debt instruments and loans to private companies.
- broadly syndicated loans; and
- short-term and liquid investments, including money market funds, short term treasuries, and/or other liquid investment vehicles.

Under normal circumstances, the Fund intends to invest at least 80% of its net assets (plus the amount of any borrowings for investment purposes) in Private Markets Investments.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation – The Consolidated Schedule of Investments has been prepared in conformity with accounting principles generally accepted in the United States of America. The Fund is considered an investment company and therefore applies the guidance of Financial Accounting Standards Board Accounting Standards Codification (“ASC”) Topic 946, Financial Services - Investment Companies. The preparation of the Consolidated Schedule of Investments requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Consolidated Schedule of Investments and the reported amounts of income and expenses for the period. Actual results could differ from those estimates. The consolidated financial statements include the accounts of the Fund and its wholly owned subsidiaries (“Subsidiaries”). The following is a summary of significant accounting policies used in preparing the Consolidated Schedule of Investments.

Consolidation of a Subsidiary – The Fund may make investments through its Subsidiaries. Such Subsidiaries will not be registered under the 1940 Act. The Board has oversight responsibility for the investment activities of the Fund, including its investment in any Subsidiary. To the extent applicable to the investment activities of a Subsidiary, the Subsidiary will follow the same compliance policies and procedures as the Fund. The Fund would “look through” any such Subsidiary to determine compliance with its investment policies. The consolidated financial statements of the Fund include AlInvest CAPM Holdings, LLC, AlInvest Seed Fund GP, LLC, AlInvest Seed Fund Limited Partner, LLC, AlInvest Seed Fund, L.P., and ACP 2022 Marvel Blocker LLC, all wholly-owned subsidiaries of the Fund.

Valuation – Portfolio securities are valued at market value determined on the basis of market quotations or, if market quotations are not readily available or are unreliable, at fair value as determined in accordance with the policies and procedures approved by and under the oversight of the Board. Pursuant to these policies and procedures, AlInvest, as the Fund’s investment adviser, serves as the Fund’s valuation designee pursuant to Rule 2a-5 of the 1940 Act. In this capacity, the Adviser is responsible, among other things, for making all fair value determinations relating to all of the Fund’s investments, subject to the Board’s oversight.

The Fund values its Private Markets Investments at fair value consistent with the principles of ASC Topic 820, Fair Value Measurements (“ASC 820”). For Liquid investments that are publicly traded or for which market quotations are available, including broadly syndicated term loans, valuations are generally based on the closing sales prices as of the valuation date. See Note 3, “Fair Value Measurements”.

3. FAIR VALUE MEASUREMENTS

The Fund follows the provisions of ASC 820-10, Fair Value Measurements and Disclosures, which among other matters, requires enhanced disclosures about investments that are measured and reported at fair value. ASC 820-10 defines fair value, establishes a framework for measuring fair value in accordance with GAAP and expands disclosure of fair value measurements. ASC 820-10 determines fair value to be the price that would be received for an investment in a current sale, which assumes an orderly transaction between market participants on the measurement date. ASC 820-10 requires the Fund to assume that the portfolio investment is sold in its principal market to market participants or, in the absence of a principal market, the most advantageous market, which may be a hypothetical market. Market participants are defined as buyers and sellers in the principal or most advantageous market that are independent, knowledgeable, and willing and able to transact. In accordance with ASC 820-10, the Fund has considered its principal market as the market in which the Fund exits its portfolio investments with the greatest volume and level of activity. ASC 820-10 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. In accordance with ASC 820-10, these inputs are summarized in the three broad levels listed below:

The three-tier hierarchy of inputs is summarized below:

- Level 1 — unadjusted quoted prices in active markets for identical financial instruments that the reporting entity has the ability to access at the measurement date.
- Level 2 — inputs other than quoted prices included within Level 1 that are observable for the financial instrument, either directly or indirectly. Level 2 inputs also include quoted prices for similar assets and liabilities in active markets, and quoted prices for identical or similar assets and liabilities in markets that are not active.
- Level 3 — significant unobservable inputs for the financial instrument (including management’s own assumptions in determining the fair value of investments).

Underlying Funds – Investments in Underlying Funds are recorded at fair value, using the Underlying Funds’ net asset value as a “practical expedient,” in accordance with ASC 820-10.

Investments in Underlying Funds generally are restricted securities that are subject to substantial holding periods and are not traded in public markets. Accordingly, the Fund may not be able to resell some of its investments for extended periods, which may be several years. The types of Underlying Funds that the Fund may make investments in include Primary and Secondary Investments. Primary Investments are investments in newly established private equity funds. Secondary Investments are investments in existing private equity funds that are acquired in privately negotiated transactions.

The fair value relating to certain underlying investments of these Underlying Funds, for which there is no public market, has been estimated by the respective Underlying Funds’ management and is based upon available information in the absence of readily ascertainable fair values and does not necessarily represent amounts that might ultimately be realized. Due to the inherent uncertainty of valuation, those estimated fair values may differ significantly from the values that would have been used had a public market for the investments existed. These differences could be material.

AlpInvest will adjust the fair value provided by the Underlying Funds’ management for subsequent cash flows received from or distributed to the Underlying Funds and for any changes in the market prices of public securities held by the Underlying Funds and may also apply a market adjustment to reflect the estimated change in the fair value of the Underlying Funds non-public investments from the date of the most recent net asset value provided by the Underlying Funds’ management.

Direct Investments – The Fund may also make Direct Investments, which may include debt and/or equity securities issued by operating companies and are typically made as investments alongside a private equity fund.

AlpInvest determines comparable public companies based on industry, size, developmental stage, strategy, etc., and then calculates a trading multiple for each comparable company identified by dividing the enterprise value of the comparable company by its earnings before interest, taxes, depreciation and amortization (EBITDA). The trading multiple may then be discounted for considerations such as differences between the comparable companies and the subject company based on company specific facts and circumstances. The combined multiple is then applied to the subject company to calculate the value of the subject company.

Broadly Syndicated Loans – The Fund may also make investments in broadly syndicated loans. The broadly syndicated loans are fair valued using pricing services and broker quotes. Pricing for the broadly syndicated loans is provided by the Sub-Adviser who obtains marks from Markit, a third-party pricing service. The Sub-Adviser checks the valuations and determines if price overrides or challenges are needed before final pricing is provided to AlpInvest. Accordingly, the inputs used to measure fair value may fall into different levels of the fair value hierarchy.

The following table is a summary of information about the levels within the fair valuation hierarchy at which the Fund’s investments are measured as of June 30, 2023:

Investments	Level 1	Level 2	Level 3	Total
Broadly Syndicated Loans	\$ –	\$ 20,639,001	\$ 244,365	\$ 20,883,366
Direct Investments	–	–	77,051,161	77,051,161
Total	\$ –	\$ 20,639,001	\$ 77,295,526	\$ 97,934,527

The Fund held Primary Investments and Secondary Investments with a fair value of \$119,282,368, which are excluded from the fair value hierarchy as of June 30, 2023, in accordance with Subtopic 820-10 as investments in Underlying Funds valued at net asset value, as a "practical expedient", are not required to be included in the fair value hierarchy.

ADDITIONAL DISCLOSURES

Investors should carefully consider the investment objective, risks, charges, and expenses of the Carlyle AlpInvest Private Markets Fund (the "Fund") before investing. The Fund's prospectus contains this and other information about the Fund. The information contained herein is summary in nature and is in no way complete. Investing involves risk, including a complete loss of the original principal invested. Some of the key risks of the Fund include limited operating history, limited liquidity, restricted and illiquid investments, non-diversification, and valuations subject to adjustments. The Fund may engage in the use of leverage, hedging, and other speculative investment practices that may accelerate losses. Investment return and principal value of an investment will fluctuate, and an investor's shares in the Fund, when repurchased by the Fund, may be worth more or less than their original cost. Shares in the Fund are speculative and illiquid securities involving substantial risk of loss. Shares in the Fund are appropriate only for those investors who can tolerate a high degree of risk and do not require a liquid investment and for whom an investment in the Fund does not constitute a complete investment program.

AlpInvest Private Equity Investment Management, LLC ("APEIM") is the investment advisor to the Fund. Carlyle Global Credit Investment Management L.L.C. ("CGCIM") is the sub-advisor to the Fund. APEIM and CGCIM are each registered as an investment adviser with the SEC under the Investment Advisers Act of 1940, as amended. TCG Capital Markets L.L.C. ("TCG Capital Markets") is a registered broker-dealer with the SEC and a FINRA member and is the distributor of the Fund. AlpInvest, CGCIM and TCG Capital markets are each located at One Vanderbilt Avenue, New York, NY 10017. APEIM, CGCIM, and TCG Capital Markets are affiliates and are part of The Carlyle Group (Nasdaq: CG). Registration with the SEC and/or FINRA does not imply a certain level of skill or training.
